SHARPLES CREAM SEPARATORS

WE ARE Agents for the splendid products of the Sharples Co. Their new "**Suction Feed**" Separators are the only Separators that will skim clean at any speed and this feature alone guarantees one-fifth more cream than can be saved by any other separator.

Oil tight gear case. Oil once a month.

The only separator which skims quicker when turned faster.

No need to watch your speed.

"Suction Feed" sucks milk into bowl in proportion to speed—result clean skim at any speed.

The only separator with knee low supply tank.

Suspended single frictionless ballbearing—that's why the Sharples runs easier. Bowl skims clean at low speed—cream stays same thickness at any speed.

Patented Tubular Bowl creates double skimming force.

The simple tube has no discs to wash.

You are familiar with the well-known advantages of the regular Tubular Separator. You know the simple, tube-shaped bowl, with its enormous skimming force (double that of any other machine made)—no discs, easily cleaned, almost indestructible. You know the advantages of having all the gears solidly encased and running in oil. You know how the bowl hangs from a single ballbearing, spinning naturally, instead of being supported from below.

The "**New Sharples**" with all these advantages needs only its **new features** described here of which most important is the

SUCTION FEED

The milk is drawn up through the bottom of the bowl by the suction force of the revolving bowl—and the greater the speed the faster the separation—But at all speeds the **New Sharples Skims Clean**—and the cream is of a uniform density—just what you set the cream screw for—and—you get all the cream at any speed—fast or slow—and the faster you turn the greater the capacity. This is true of no other separator.

AUTOMATIC MILK SHUT OFF. UNBENDABLE SPINDLE—are only a few of the new exclusive features fully explained and illustrated in the **CATALOG OF THE "NEW SHARPLES."**

Plant gladioli from April 1 to as late as July 15 and have continual bloom until heavy frosts. Plant four inches deep and not less than four inches apart in a sunny situation. Cultivation and water will improve the blooms. When cutting leave at least four leaves. Cut when first bloom opens and they will bloom to extreme tip when kept in water and last from a week to two weeks. For cutting they are unsurpassed.

The above list of Fine Gladioli Bulbs are grown by the Upjohn Gladiolus Gardens and are the finest bulbs grown anywhere.

SPRAY MATERIAL

We carry the largest stock of the most reliable spray materials in the city. You will find that our prices are the lowest that can be made on first class goods. You do not want to use anything but the best as it is money thrown away to use poor spray material. Spare the Spray and Spoil the Fruit. Never before has it been so necessary to protect fruit and vegetable crops against the ravages of insects and fungous diseases. This applies to commercial plantations and to the small orchard or garden. The question as to whether spraying pays has been answered. The real problem is one of improving sprays and their method of application.

S=W. Spray Oil, or Spray Mulsion. For Scale, Thrip, etc.

From experiments we have made the past ten years, we find that for Scale on Fruit trees, there is no spray that has the killing effect of the oil spray. Should be applied as a dormant spray for this purpose.

Spray-Oil, so far has been the only remedy for thrips; should be used with Black Leaf 40 and applied as soon as the thrip shows. Do not delay as the damage is done within a day or so and crop ruined. **5 gal. can, \$2.50; 50 gal. bbl. \$15.00.**

S=W. Lime Dry Sulfur. This is taking the place of the old Lime-Sulphur Solution as it has all the advantages and none of the disadvantages of this spray. A 100 lb. drum makes as much spray as a 600 lb. bbl. of the old spray. From tests made the last few years, it has surpassed all other sulphur sprays in various tests.

Used for San Jose Scale, Apple Scab, Peach Curl Leaf, Brown Rot, Pear Psylla, Leaf Blister, Mite, etc. **Lb. 30c; 5 lbs. \$1.15; 10 lbs. \$2.00; 25 lbs. \$3.50; 50 lbs. \$6.00; 100 lbs. \$10.50; 200 lbs. \$19.00.** Add parcel post if wanted by mail.

Lime-Sulphur Solution. For those who prefer the solution, we carry the Dependable Brand and can recommend it as a high grade solution. **50 gal. bbl. \$9.00.**

S=W. Arsenate of Lead, Dry Powdered. This has supplanted the paste form and is now used in all sections of the U. S. Much more convenient to use, only takes half as much, much more easy to mix, does not freeze, always good, no matter how old. Arsenic and Lead thoroughly combined, eliminating danger from burning. Cannot be sent by mail. Write for prices.

S=W. Fungi- Bordo Spray, Dry Powdered. The most convenient form of Bordo spray. Easy to handle and mixes readily. Now sold at prices that are cheaper than you can afford to buy the materials and make it. Cannot be sent by mail. **Lb. 35c; 5 lbs. \$1.25; 25 lbs. \$4.50.**

Black Leaf 40, Nicotine Sulphate. Guaranteed to contain 40% nicotine. When used according to directions it neither burns nor stains fruit or foliage. Used as a fruit spray for thrip and Aphis, as a Hop spray, and as a Sheep Dip. Also used on Garden truck, Onions, etc. Cannot be sent by mail. **Oz. 35c; ¼ lb. \$1.25; 2 lbs. \$3.50; 10 lbs. \$13.50.**

Whale Oil Soap. An excellent summer wash for Aphis, etc. **Lb. 20c; 100 lbs., market price.**

Tobacco Powder for Dusting. For destruction of Green Fly, Aphis, etc., where fumes cannot be confined. **Lb. 15c; 10 lbs. \$1.25.**

Sulphur. A good grade of sulphur for spraying, etc. **Lb. 5c; 10 lbs. 50c; 110 lbs. \$2.75. Ton, \$45.00.**

Lime. The best grade on the market for all purposes. **10 lbs. 30c; 100 lbs. \$2.25; bbl. \$3.75.**

Bluestone. The best grade for spraying. **Lb. 15c; 100 lbs. market price.**

Grafting Wax. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; postage extra.

Beeswax. **Lb. 60c; postpaid, 70c.**

Rosin. **Lb. 15c; postpaid; 10 lbs. 75c, not postpaid.**

Slug Destroyer. This is a powder that you sprinkle around the plants to keep the slugs away. And it does it. **Pkg. 25c; postpaid, 35c.**

Magotite. Insures a good crop of Radishes, Kale, Cabbage, Onions, Turnips, Cauliflower, etc. "Mag-O-Tite" acts as a preventive by repelling the Fly which lays the eggs from which the Maggots are hatched and it also destroys Maggots which are already in the soil. While intended primarily as a remedy for Root Maggots, it has proved very effective in combating Earth Worms of all kinds, the Strawberry Crown Borer, Cabbage Worms, Asparagus Miner, Flea Beetle, Cut Worms, and all kinds of Slugs. Approximate quantity required. A 2-lb package for about 300 feet of drill, or for field culture, 300 to 500 lbs. per acre. **2 lbs. pkg. 25c; 4 lbs. pkg. 50c; 8 lbs. pkg. \$1.00; 25 lbs. sack, \$2.50; 100 lbs. sack, \$8.50.** Send for folder of directions.

Carbola. The disinfecting white paint, used instead of whitewash. 10 lbs. pkg. \$1.50; Postpaid, \$1.70.

LEE'S GARDEN INSECTICIDE

To be used against garden insects, such as cabbage worms, plant lice, green bugs, beetles, etc. Also, used on roses and shrubbery. 1 lb. can, 35c; postpaid, 45c.

TREE PAINT

This is to paint over the cut after pruning or where you have had to cut away the wood. 1 gal. cans, \$1.00; postpaid, \$1.15.

TREE TANGLEFOOT

Usually used around the base of the tree to keep insects and vermin off tree. Lb. can, 50c; postpaid, 60c; 3 lb. can, \$1.45; postpaid, \$1.55; 10 lb. can, \$4.25; postpaid, \$4.50.

PRUNING COMPOUND

This is in the form of a thick paste and is the best article on the market. Stays pliable and does not crack or harden and protects the tree. Qt. can, 65c; postpaid, 75c; 1 gal. can, \$2.00; postpaid, \$2.15.

FLY SPRAYS

Dr. Hess Fly Spray has proven one of the best on the market. Qt. can, 60c; postpaid, 70c; ½ gal. can, 90c; postpaid, \$1.00; 1 gal. can, \$1.50; postpaid, \$1.65; 5 gal. can, \$7.00.

Conkey's Fly Spray. A very popular article. Qt. 70c; postpaid, 80c; ½ gal. can, can, \$1.15; postpaid, \$1.25; 1 gal. \$1.75; postpaid, \$1.90.

So-Bos=So. An old favorite that many prefer. Qt. can, 65c; postpaid, 75c; ½ gal. \$1.00; postpaid, \$1.10; 1 gal. can \$1.60; postpaid, \$1.75.

KAYSO SPREADER

This Casein Spreader has proven the most satisfactory on the market. It spreads over more surface and makes an even spread and holds the spray better than any other spray we have been able to secure. It will pay you to use **Kayso** in all your sprays. 1½ lb. pkg. 30c; postpaid, 40c; garden size, 25c each; 35c, postpaid.

ORCHARD FERTILIZERS

Last year we sold the following mixture to many orchard men and had some very good results. Several stated that it increased their crop from 50% to 100%. **Superphosphate**, 60 lbs., tankage, 15 lbs.; **Nitrate of Soda**, 15 lbs.; **Muriate of Potash**, 10 lbs.

Applied to trees as follows: 5 year old tree, 3 lbs. per tree; 7 to 8 year old tree, 4 lbs. per tree; 10 to 12 year old tree, 5 lbs. per tree; older trees, 6 lbs. per tree.

LOGANBERRIES

The same mixture gave excellent results on Logans. Apply about one-half pound per hill according to condition.

Prices on Page 17.

LIME FOR CHERRIES

The only remedy for Cherry trees that have Gumosis that we have been able to find is Lime. Applied around base of tree, it has proven very successful. If the Fertlime is used, apply about 5 lbs. per tree for two years. If Ground Lime Rock is used, apply about 10 lbs. per tree for two years. In very bad cases, it may be necessary to apply for three years but usually two years has cured the trees entirely. **Prices on Page 17.**

HIGH GRADE FERTILIZERS

BLATCHFORD'S CALF MEAL

After having tested all the leading Calf Meals on the market, we are satisfied that Blatchford's Calf Meal has no equal. From all the reports from many dairymen, there is not its equal on the market.

It costs slightly more than some other brands but it goes farther and gives better results and for that reason is the most economical to use.

Prices as follows, subject to market changes: 25 lb. bag, \$1.85; 50 lb. bag, \$3.60; 100 lb. bag, \$7.00; postage extra.

SOME REASONS WHY YOUR CALVES, TOO, SHOULD BE RAISED ON BLATCHFORD'S CALF MEAL

Blatchford's is the original calf meal—and the best. It has been successfully used by farmers and dairymen all over this country for upwards of 39 years.

It supplies in easily assimilated form all the food elements the calf requires for rapid growth, early maturity, thrift and health.

It makes it possible and profitable to raise all the calves—especially the heifers—to fill the gaps and replace the "slackens" in a dairy herd.

Blatchford's Calf Meal is strictly a quality product. Only the very best materials are used in its production.

Blatchford's Calf Meal is more economical to feed than milk. Its use effects a money-saving of at least one-half.

It is easy to feed. Calves relish it—from babyhood up. They find it "good to the last drop."

Upon thousands of farms Blatchford's Calf Meal is considered absolutely essential to proper and profitable calf-raising.

LILLY'S CALF MEAL

This is a high grade article and gives good satisfaction. **25 lb. bag, \$1.60.**

B-K Disinfectant

SAVES TIME—SAVES LABOR—SAFE—CLEAN—POWERFUL—LEAVES NO ODOR
—NOT A POISON

DISINFECTANT DEODORANT CLEANSER

NOTE THESE REMARKABLE QUALITIES

Powerful. By Government Method of test B-K has over ten times greater germ-killing strength than carbolic acid. Much stronger than coal tar disinfectants—much safer.

Safe. B-K contains no poison, acid nor oil.

Clean. B-K is colorless, leaves no stain on floors, walls or utensils. Does not soil animal's hair.

Deodorant. B-K destroys foul odors—leaves no odor of itself.

Cheap to Use. B-K is so strong that much water is used in diluting. One gallon B-K makes 200 to 500 gallons of dilution ready for use according to the purpose.

BEE SUPPLIES

SECTION HONEY BOXES

Our No. 1 Sections are made of the choicest white basswood lumber and are perfect in finish, and free from defects. They are not all snow white, but vary from that to a light cream color. Choice honey shows off to best advantage in a section not too white, as it is the honey rather than the wood that the consumer looks to. **100, \$2.00; 500, \$8.50.**

SECTION HOLDERS

Six section holders, with separators, one follower and wedge, are put in each super, and each holder holds four 1-lb. honey boxes. The bottom strip is $\frac{1}{4}$ -inches thick, and is cut to fit in sets of sections, $1\frac{3}{8} \times 8\frac{1}{2}$ inches, slotted. **Each, 5c; 100, \$4.50.**

COMB FOUNDATION

Packed in 1, 2, 3, and 5-pound paper boxes, of 25 pounds in a case. Light standard brood grade, 6 to 7 square feet per lb. **Price per lb. 70c.** Light section grade 11 to 12 square feet per lb. **Price per lb. 80c.** If foundation is wanted by mail, add 6c per lb. up to two lbs., and 2c per lb. over 2 lbs.

HOFFMAN BROOD FRAMES

The Hoffman Improved Foundation Fastening Frames are the latest and best brood frames out. The top bar is made with a beveled strip which holds the foundation absolutely in place, perfectly straight and exactly in center of top bar. Anyone can put foundation in these new frames very rapidly. **Price Hoffman Frames, per 10, 80c; per 100, \$7.00.**

SEPARATORS

One separator should always be placed between each section holder so that the bees will build the honey comb even in each section. Slotted wood separator, $4\frac{1}{2} \times 18$, **per doz. 15c; per 100, \$1.00.**

BEE VEILS

Hat Veils. These veils have a rubber band around the top so as to fit the hat snugly. The lower end is bound, to prevent fraying. The kinds of material are given below. **Price list (postpaid). No. 3 Veil, cotton tulle throughout \$1.35.**
Globe Veils, each, \$1.65.

BEE ENTRANCE GUARDS

Root's or Tinker's. These are to admit workers and exclude drones. After the drones are all out, fix the guards over the entrance, and at night the drones can be destroyed. **Price, 35c; by mail, 45c.**

TINNED WIRE

No. 30. Per spool, 10c, postpaid; $\frac{1}{4}$ lb. spool, 25c; postpaid, 30c.

BEE SMOKERS

Clark's Cold Blast. Probably the most popular smoker in use today is the Cold Blast, although many are now changing to the hot blast, claiming that they are more effective. The Clark is the best low-priced smoker. **Price, \$1.25; by mail, \$1.35.**

Root Smoker. It is neat in appearance and does not topple over easy. Makes a good strong blast, with little work. Very substantial. **Price, standard, $3\frac{1}{4}$ inch, \$1.75; by mail, \$1.85.**

HAWAIIAN CANE MOLASSES FOR LIVESTOCK

Cane Molasses is the one universal feed for livestock. Whether you are feeding to produce milk, beef, pork or wool, the benefits of a molasses ration are readily observed. Successful livestock men and dairymen everywhere are adopting it as a regular addition to the feed ration. In the great dairy and feeding sections of the Middle West molasses has long been recognized as a valuable feed and hundreds of cargoes are shipped from Cuba to ports in the United States to be transferred to tank cars, destined for the dairy and feeding sections.

The larger dairy and feeding stations have their own tanks and mixing equipment for molasses. There is plenty of evidence of its value.

Now that it has become available on the Pacific coast, dairymen and feeders are equipping themselves to take advantage of this cheap and wonderful feed. And why? Every gallon of Hawaiian Cane Molasses contains over five pounds of sugar.

It is a great appetizer.

It is a milk producer.

It is a tonic.

It is a great fattener.

It keeps the animal in good condition.

It makes an irresistible appeal to stock of all kinds and enables you to feed up all the roughage on the place.

We buy it in large lots in bulk and furnish a returnable drum. Our price is the lowest ever sold for here. **600 lb. drum, \$9.00 with allowance of \$1.00 for return of drum.** Remember there is no leakage in drums while the loss in barrels is considerable.
